From the Desk of **DIRECTOR GENERAL**

I am pleased to present the Annual Report, 2018 for the Narcotics Control Bureau. The report summarizes the various aspects of the drug law enforcement activities undertaken by NCB as the nodal agency of the Government of India. It also highlights the national perspective on narcotics and psychotropic substances, trafficking trends, emerging areas of concern and international drug trafficking scenario.

The changing paradigm of the global drug trafficking places India in a spot which characterizes it both as a source as well as a transit country. The ever changing challenges for the drug law enforcement agencies are multi-dimensional. The counter narcotic efforts are on strong foundations and NCB has amply demonstrated its capacity to deal with emerging challenges.

The spillover effect of the Afghan Heroin heading for Asian market poses additional challenge in terms of geographical proximity as well as networks of overseas drug groups targeting India as a transit base. The seizure of 1258 Kg of Heroin has significant share of Afghan variety smuggled from across the Indo-Pak border. 3911 Kg of Hashish seized, which is higher compared to last few years. The seizure of Cannabis (Ganja) has also increased from previous years.

The "in-baggage" and "on-person" are frequently used concealment methods for the transportation of heroin. The other methods like "swallowers" and "body-cavity" are also on the rise. These trends are indicative of the strong network of drug traffickers in the region. It has been NCB's constant foray into the realm of international cooperation for sharing actionable intelligence in real time.

NCB's ongoing commitment is reflected in the international arena by placing India in the forefront of the global fights against drugs. These commitments have been translated pragmatically through several Joint Working Groups meetings with countries sharing mutual concern and goal. The efforts are further buttressed by Bilateral Agreements to engage other countries on a common agenda.

The changing dynamics of organized crimes is a constant battle for drug law enforcement agencies and I am sure NCB shall continue to strive forward and receive the cooperation of all concerned.

**DRUG
TRAFFICKING
SCENARIO
IN INDIA**

CHAPTER

01

The drug trafficking scenario in India is largely attributed to various external and internal factors. One of the prime external factors happens to be India's close proximity to the major Opium producing regions of South West and South East Asia known as the 'Golden Crescent' and the 'Golden Triangle', respectively. The geographical location of India as such, makes it vulnerable to transit, trafficking and consumption of Opium derivatives in various forms along the known trafficking routes. The major internal factors responsible are illicit cultivation of Poppy and the diversion from the opium sources into illicit production in interior areas.

DRUG TRAFFICKING SCENARIO IN INDIA

One of the critical factors that impacts drug trafficking in any country, is its geographical location. India is no exception. For long, India has been susceptible to drug trafficking which is sourced to two of the most sensitive areas of the world referred loosely as the 'Golden Crescent' (Pakistan, Afghanistan and Iran) and the 'Golden Triangle' (Myanmar, Thailand and Laos). The illicit opium and heroin production in Afghanistan during the years 2017 and 2018 reached record levels. Consequently, there is a huge increase in trafficking of illicit opiates from Afghanistan to countries of the region namely India, Sri Lanka and Maldives. Every conceivable route and modus operandi is exploited by the traffickers to push in illicit heroin into India, the most significant of which being the maritime route. Not surprisingly, the abuse of illicit opiates has emerged as the most significant cause of concern in India in the Drug Abuse Survey Report which was brought out by the Ministry of Social Justice & Empowerment (MSJE) earlier this year in the month of February. The MSJE carried out its first ever truly national survey on drug use in 2018, the results of which were published, early this year. The survey was based on the combined techniques of Respondent Driven survey

and Household survey from each State in the country with sample size of over 5 lakh. A prevalence of 2.1% of the population between the age group of 10 - 75 has been indicated for opiates which translates into **2.3 crore users of which 77 lakh are detected with problem use**. The survey also reports that heroin is the most commonly used opioid in India (1.14%) followed by pharmaceutical opioids (0.96%) and opium (0.52%). An extremely alarming aspect as reported by the survey is that prevalence of opioids abuse in India (2.06%) is **over 4 times the Asian average (0.4.6%) and over 3 times the world average (0.70%)**.

1.1 TRENDS AND PATTERNS 2018

- The major drug trafficking trends in the country may be summarized as under.
- Trafficking of Heroin from South West Asia to India for possible internal consumption and again from India to other countries.
- Trafficking of Hashish from Nepal to India and from India to Nepal.
- Illicit cultivation of Opium and wild growth of Cannabis in some areas.
- Diversion of precursor chemicals and other controlled substances.

- Diversion of Ephedrine /Pseudoephedrine across Indo-Myanmar Border and reverse trafficking of Methamphetamine.
- Diversion of pharmaceutical preparations and prescription drugs containing psychotropic substances and trafficking to neighboring countries.
- Diversion of non-scheduled drugs / Ayurveda medicines and trafficking to Middle East, and other Western countries.
- Maritime Trafficking – use of sea route for Trafficking of South West Asian Heroin from Pakistan, Afghanistan into India.
- Internet pharmacies and misuse of courier services.
- Use of dark net and bit coins in drug trafficking.
- Diversion of Opium from licit cultivation and indigenous production of low quality Heroin.
- Involvement of foreign nationals in trafficking and distribution networks.

1.2 NARCOTIC DRUGS

1.2.1 OPIUM

Papaver Somniferum, commonly known as the opium poppy, is a species of flowering plant in the family Papaveraceae. It is the species of plant from which opium and poppy seeds are derived. 1.4.1 Synthetic Drugs

The abuse of synthetic drugs is one of the fast emerging challenges for drug law enforcement agencies. Synthetic drugs like Amphetamine Type Stimulants (ATS) have become the drug of choice in South East Asia and in North America. In India, several attempts have been made in the past to set up clandestine manufacturing facilities, especially in Maharashtra and Gujarat to produce ATS.

Trends:

- Trafficking of ATS from Myanmar to India along North-Eastern Border States.
- Australia, Malaysia and Thailand are the major destination countries for ATS trafficking sourced from India.
- USA, Australia, Malaysia and South Africa are the major destination countries for Methaqualone/ Mandrax sourced from India.

1.7 PHARMACEUTICAL DRUGS

• The abuse of pharmaceutical drugs in India has assumed serious proportions in recent times. The problem seems to be serious in the North-east and North-west region of the country. The pharmaceutical products that are abused include Buprenorphine, Codeine-based cough syrups, Alprazolam, Diazepam and other sedatives. The easy availability of such preparations is the major factor that encourages their misuse. There is also a perception that these pharmaceutical drugs

are less harmful than hard drugs like Heroin, Cocaine, etc. However, this is a misconception, since these can be addictive and also have a debilitating effect on health. Pharmaceutical preparations having narcotic / psychotropic substances are under the purview of the Drugs and Cosmetic Act, and the NDPS Act in India.

1.8 INTERNET PHARMACY

- The emergence of illegal websites established in the USA, Europe etc. offering unregulated trade in a range of prescription medicines over the internet has taken firm root in India as a supplier. These online pharmacies transmit orders from paying customers to agents in India, who then procure the medicines from either legitimate or illegitimate sources before dispatching them to customers by mail and courier. The sheer volume of international post makes it impossible to screen every parcel and hence a vast majority of illegal consignments passes by undetected by the authorities.

- Internet pharmacies are usually highly vulnerable and keep the identity of organizers tightly veiled. In India, nevertheless, the NCB either on its own or in coordination with the outside agencies has been making at least one bust every year over the years.

- On 02.08.2018, officers of NCB, Delhi Zonal Unit seized 6655 tablets of Daizapam, 5230 tablets of Zolpidam, 755 tablets of Clonazepam, 290 tablets of Alprazolam, 180 tablets of Nitrazepam, 9300 tablets of Tramadol and busted 01 illegal Internet Pharmacy at Gurgaon. The suspected destination of the seized drug was various countries. 01 person was arrested.

- On 17.08.2018 & 18.08.2018, officers of NCB, Delhi Zonal Unit seized 1.360 kg tablets of Diazepam, 955 gram tablets of Hydrocodone, 143 gram tablets of Adderal,

60 gram tablets of Xanax, 1260 tablets of Alprazolam, 5890 tablets of Lorezapam, 10640 tablet of Phentermine, 20100 tablets of VV DON Hydrocodone, 115 tablets of Clonazepam, 356 of Suspected tablets and 3000 tablets of Lypin at Delhi NCR and busted 01 illegal Internet Pharmacy. 04 persons were arrested.

1.9 CONTROLLED DELIVERY

- Controlled Delivery is a technique which allows illicit or suspect consignments of Narcotics drugs and Psychotropic Substances, controlled substances or substances substituted for them to pass out of, or through or into the territory of India with the knowledge and under the supervision of an officer empowered in this behalf or duly authorized under section 50A with a view to identifying the persons involved in the commission of an offence under this Act;

- The Director General of Narcotics Control Bureau constituted under sub-section (3) of section 4 or any other officer authorized by him in this behalf, may, notwithstanding anything contained in this Act, undertake controlled delivery of any consignment to:

- (a) any destination in India
- (b) a foreign country, in consultation with the competent authority of such foreign country to which such consignment is destined, in such manner as may be prescribed.

- During the year 2018, three Controlled Delivery Operations were conducted with the help of United Kingdom and USA.

CAPACITY BUILDING

2.1 TRAINING

Training programmes are conducted by Policy & Co-ordination wing of Narcotics Control Bureau, through a variety of channels. In India, the Officers working for drug law enforcement include officers from Central and State Government agencies which include the following;

- Narcotics Control Bureau
- Customs and Central Excise
- Department of Revenue Intelligence
- Border Guarding Forces
- State Police
- State Excise
- State Drug Controller, etc.

Common training requirements of the above mentioned agencies include, principal laws like Narcotic Drugs and Psychotropic Substances Act, 1985, PITNDPS Act, 1988, Regulation of Controlled Substances Order (RCS Order), 2013, Circular/ notifications, documentation procedures, emergence of New Psychoactive Substances (NPS), precursor control mechanism, collection of intelligence, National/ International trends in drug tracking, the study of reasons for acquittal of cases.

NCB conducts regular short duration training programmes for such field officials, either by itself or in co-ordination with other

authorities like National Academy for Custom, Excise and Narcotics(NACEN), Intelligence Bureau(IB), Central Bureau of Investigation(CBI), North Eastern Police Academy(NEPA), National Institute of Criminology and Forensic Sciences(NICFS), Border Guarding Forces, State Police Training Centres, etc.

These programmes also provide a platform for sharing of best practices of the agencies in their respective areas of strength.

Some outcomes of such training are:

- Increase knowledge of drug law enforcement.
- Enhancement of professional skills in detecting/investigating drug offence cases.
- Enhancement of intelligence collection and analysis skills.
- Identification of the trends and patterns of drug tracking, and patterns and the dynamics of drug tracking, etc.
- Understanding, planning and executing "Controlled Delivery" Operations.
- Better understanding of drugs, precursors and clandestine labs.
- Knowledge of various interdiction techniques.
- NCB also provides 'resource persons' and training materials to other sister organizations like NACEN, CBI Academy, NICFS, BSF, SSB, NPA and State Police Academies for specialized training in drug law enforcement.

COMPUTER BASED TRAINING (CBT)

The Computer Based Training (CBT) is a part of UNODC Global e-Learning Programme which began in June 2010 for imparting training to the law enforcement officers across the globe on various subjects related to drug trafficking. NCB has set up 12 CBT centres in coordination with UNODC at NCB Headquarters, New Delhi and NCB Zonal Units at Kolkata, Chennai, Bangalore, Chandigarh, Indore, Guwahati, Jodhpur, Lucknow, Jammu, Patna and Ahmedabad. CBT modules cover all aspects of drug law

enforcement including intelligence, investigation, precursor tracking and anti money laundering. The CBT is a hands on training module, where a learner can learn by committing mistakes. The interactive nature of the modules facilitates enhanced retention.

The module has pre and post test scores/sessions which enables the administrator to assess the impact of learning process.

During this period, NCB conducted 207 Training Programmes all over India. A total of 7,943 persons participated in the training programmes.

2.2 ASSISTANCE TO STATES

The grant under the "Assistance to States & UTs" scheme is subject to establishment of the following institutional mechanism:

1. Formation of an Apex Level Committee under the Chief Secretary/Senior Secretary of respective States/ UTs to draw up a strategy to combat both drug abuse and supply of drugs.
2. Setting up of an Anti Narcotics Task Force under an IG/DIG level officer.
3. Formulation of a 3/5-year Action Plan for the above purpose.

As per the scheme, financial assistance is given for procurement of items like Surveillance equipment, Laboratory equipment, Vehicle for patrolling/Surveillance, Computers and their accessories, Fax machine and photocopiers, Training equipment and other aids, Other equipment useful for enforcement.

The Scheme was initially launched during 2004-05, with a budget of Rs 10 crore for a period of five years. In 2009, the scheme was further extended for another five year term with an enhanced budget of Rs15 crore. Further, the scheme was extended for a period of three years viz. from 2014-15 to 2016-17 with budget of Rs. 15 crores.

NCB had requested MHA for extension of scheme "Assistance to States & UTs", for another term of five years. However, the same was extended by MHA, for another period of three years i.e. 2017-2020 with an estimated budget of Rs. 21 crores.

The implementation of the scheme is monitored by NCB. States that avail central assistance under this scheme are required to furnish performance reports and utilization certificates.

As on 31st December, 2018, financial assistance for Rs. 318,533,899/- has been provided to the States & UTs since start of the scheme in 2004.

2.4 DRUG DEMAND REDUCTION

Demand Reduction refers to the steps taken by any agency to reduce demand for consumption of narcotic drugs or psychotropic substances. The demand reduction strategy is in addition to the supply reduction strategy which focuses on drug interdiction.

The Government of India has mandated the Ministry of Social Justice and Empowerment (MSJ&E) to run different demand reduction programmes.

The measures adopted for demand reduction include:

- Awareness building and educating people about harmful consequences of narcotic drugs
- Community-based intervention for identification, treatment, motivation, counselling and rehabilitation of drug addicts
- Training of volunteers/service providers and other stake holders.

Demand Reduction Programmes by NCB:

Apart from its regular work in the field of drug interdiction, NCB does some work in spreading awareness among the masses by way of various programmes. These programmes include:

- Street Plays/ Cultural Programmes
- Run against drug abuse
- Display of Awareness Board in Pub, Bar and Airport, etc.
- Painting and slogan writing competition
- Pledge taking ceremonies
- Display of banners and posters at prominent public places
- Publication of Advertorial in leading newspaper

3.1.3 JUDICIAL COOPERATION

a) **Controlled Delivery Operations:**

NCB conducts Controlled delivery operations in coordination with other countries. The Director General, Narcotics Control Bureau is empowered under Section 50A of the NDPS Act, 1985 to authorize "controlled delivery" of any contraband drugs to India or abroad.

b) **Mutual Legal Assistance:**

Mutual Legal Assistance Treaty (MLAT) is an agreement between two countries for gathering and transfer of evidence. Mutual Legal Assistance Treaty usually provides the framework to facilitate the widest measure of mutual assistance in:

- taking evidence or statements from persons;
- effecting service of judicial documents;
- executing searches and seizures;
- examining objects and sites;
- providing information and evidentiary items;
- providing originals or certified copies of the relevant documents and records including bank, financial, corporate, and business records;
- identifying or tracing proceeds, property, instrumentalities
- or other things for evidentiary purposes;
- The specific form of Mutual Legal Assistance that can be given or obtained depends on the provisions of the treaty with the foreign government.
- India has signed Mutual Legal Assistance Treaties with 39 countries namely Australia, Bahrain, Belarus, Bosnia & Herzegovina, Bulgaria, Canada, Egypt, France, Italy, Kazakhstan, Kuwait, Mauritius, Mexico, Myanmar, Mongolia, Russia, Singapore, Spain, South Africa, South Korea, Switzerland, Tajikistan, Thailand, Turkey, Ukraine, Uzbekistan, UAE, UK and USA.

c) Extradition:

• Extradition is the process of surrendering a fugitive residing in a country, who is wanted by the law enforcement of another country, after due process.

• India has extradition treaties with Bahrain, Belarus, Belgium, Bhutan, Bulgaria, Brazil, Canada, China, Croatia, Mauritius, Mexico, Mongolia, Nepal, the Netherlands, Philippines, Portugal, Poland, Russia, Spain, South Africa, South Korea, Switzerland, Turkey, Ukraine, UAE, Uzbekistan, UK and USA. Such treaties with several other countries have been negotiated.

• India has extradition arrangements on the basis of reciprocity with Sweden, Tanzania, Italy, Australia, Singapore, Sri Lanka, Papua New Guinea, Fiji and Thailand.

• The Indian Extradition Act contains a provision in terms of which extradition can be considered even in the absence of an extradition treaty if the offence for which extradition has been sought is included in any international convention to which both India and the other country seeking extradition are parties.

3.1.4 INCB/UNODC Reporting

Being a signatory to the various international conventions on narcotic drugs and psychotropic substances, India is under obligation to submit the required information to the United Nations Office of Drugs and Crime (UNODC) and International Narcotics Control Board (INCB) in the prescribed formats. INCB is the nodal/central agency for

Narcotics Control Bureau

implementation of the India's obligations under various international conventions.

International Narcotics Control Board (INCB)
To meet the international obligations under the UN Conventions on Narcotic Drugs, 1961, Convention on Psychotropic Substances, 1971 and United Nations Convention against Illicit traffic in Narcotic Drugs and Psychotropic Substances, 1988, NCB submits seven reports in the prescribed formats namely Form A, B, C, D, P, A/P and B/P to INCB Vienna. Form A & A/P relates to Import & Export of Narcotic Drugs and Psychotropic Substances, respectively, and the same are being submitted to INCB on quarterly basis. The other Forms i.e B, C, D & P is being submitted to INCB on an annual basis and relates to annual assessment/estimates of narcotics drugs and psychotropic substances in different fields. While Form B/P is being submitted once in 3 years which relates to annual assessment of medical and scientific requirement of scheduled substances. Inputs on the different Forms

come from Central Bureau of Narcotics (CBN), the Chief Controller of Factories (CCF) and the Drug Controller General of India (DCGI).

United Nations Office on Drugs and Crime (UNODC)

Every member country has to provide inputs in the Annual Report Questionnaire (ARQ) every year on the working of the international drug control treaties to UNODC.

The ARQ has four parts detailed below:

Part-I Legislative and Institutional framework

Part-II Comprehensive approach to drug demand & supply reduction

Part-III Drug Abuse situation, extent, pattern and trends of drug abuse

Part-IV Illicit supply of drugs - Extent, pattern and trends in illicit drug cultivation, manufacture and Trafficking.

भारत का संविधान

उद्देशिका

हम, भारत के लोग, भारत को एक संपूर्ण प्रभुत्वसंपन्न, समाजवादी, पंथनिरपेक्ष लोकतंत्रात्मक गणराज्य बनाने के लिए, तथा उसके समस्त नागरिकों को :

सामाजिक, आर्थिक और राजनैतिक न्याय, विचार, अभिव्यक्ति, विश्वास, धर्म और उपासना की स्वतंत्रता, प्रतिष्ठा और अवसर की समता, प्राप्त कराने के लिए, तथा उन सब में, व्यक्ति की गरिमा और राष्ट्र की एकता और अखण्डता सुनिश्चित करने वाली बंधुता बढ़ाने के लिए,

दृढ़संकल्प होकर अपनी इस संविधान सभा में आज तारीख 26 नवम्बर 1949 ई० (मिति मार्गशीर्ष शुक्ल सप्तमी, संवत् दो हजार छह विक्रमी) को एतद्द्वारा इस संविधान को अंगीकृत, अधिनियमित और आत्मार्पित करते हैं।
